BAR MENU

A Brief History of “The Field”

ESTABLISHED 1843

Long ago, on the harsh rocky landscape of western Ireland, a father using his bare hands took stones from the barren lifeless soil and using nothing but seaweed for fertilizer, transformed the land into lush, rich, green grassland. This became known as “The Field,” and was passed on through generations from father to son. “The Field” was lovingly tended and fiercely defended against trespassers. It produced the finest grazing for cattle and sheep and yielded the very best crops of potatoes and vegetables. All of the interior, tools and equipment you see around has been shipped directly from “The Field” in Ireland. The “bric-a-brac” adorning the walls has been gathered and used by the family through many periods of Irish history.

Irish cooking has a rich and colorful history, famous for its seafood, corned beef, shepherd's pie and Irish stew. Here at “The Field,” we take great pride in our “Boxy Dishes,” a delicious potato-based recipe, unique to Galway on the west coast of Ireland, the original home of “The Field.”
